4G Life Minder

PERSONAL SAFETY ALARM

The Life Minder goes with you wherever you are, not just at home. Works across Australia.

**Calls up to 8 people
in the case of an emergency.**

**Sends its GPS location followed by
a clear two-way talk conversation.**

STEP 1 Press the SOS button wherever you are, home or out in the community.

In the case of a fall or wandering from home it will automatically raise an alarm.

STEP 2 The Life Minder will send a SMS message to 8 family or friends programmed mobile numbers, giving its location using Google Maps.

STEP 3 The Life Minder calls up to 8 programmed numbers in turn, and will continue until answered.

STEP 4 When auto answered the Life Minder can talk hands free.

- Telstra Coverage
- No Ongoing Monitoring Fees
- Two-Way Talk
- Available in Black or White
- GPS Location
- IP67 Water Resistant

Get your life back and feel free again, play golf, go fishing, go for early morning walks

No need for a complicated mobile phone, NBN land line or internet, it is so simple to use and will give the family the comfort of knowing that their loved ones are protected. The user can even dial two of the programmed numbers from the Life Minder by simply pressing a button.

EASILY ATTACHED TO A WRISTBAND, BELT, NECK LANYARD OR KEYSRING

Falls

Risk of falls can be fatal if not addressed immediately, The Life Minder will alert all contacts, giving them the location of the wearer followed by a telephone call.

Wandering

Dementia has become a major issue for many families. Wandering from their home is a major concern that could result in a serious injury.

The Life Minder will place a GEO fence around the home. If the person wanders past this boundary it will immediately send out a SMS message warning of the potential danger. The Life Minder will repeatedly send a new location map where the Life Minder is. Any of the programmed numbers can call the Life Minder and talk handsfree with the user.

Monitoring

There is no need for a costly monitoring centre, the Life Minder can be programmed to any of your family, friends or 000.

If there isn't any family or friends, as an alternative we have our Medical Monitoring Centre which will take all of the emergencies and call an ambulance if required.

Life minder service

The Life Minder is supplied with a Aldi sim card on the Telstra Network and fully programmed with the information supplied by the family. It will be fully charged and ready for use when delivered.

On going customer support

Life Minder has a free call 1800 number for our service and customer support. The Life Minder comes with 12 months warranty, and a 14-day guarantee money back if not completely satisfied.
